Majed Alqudah

EDUCATION

JORDAN UNIVERSITY OF SCIENCE AND TECHNOLOGY   2020/2021 - 2023/2024

Bachelor's COMPOUTER SCIENCE

Cumulative GPA Rank: Very Good

RESEARCH PROJECTS

Personal Portfolio Website

https://majedalqudah.github.io/

a website made by html css javascript

Multi-threaded Dictionary Server

server follows a client-server architecture using sockets and threads. It implements a multi-threaded design to handle concurrent client requests. The server listens for incoming connections on a specified port and responds to client queries with the meanings of words from the dictionary

link :https://github.com/MajedAlqudah/Multi-threaded-Dictionary-Server.git

FlobbyShooter game

A 2D game made using pygame library in python

link https://github.com/MajedAlqudah/pygame.git
